

## TB20e NEW ELECTRIC compact excavator

The TB20e is the latest innovation in the Takeuchi excavator line-up. A fully electric machine, and the first Takeuchi excavator to feature electro-hydraulic controls. Built with the same all steel construction, heavy duty boom and retractable under carriage, matching the performance of its diesel TB216 equivalent.

The TB20e is ideal for applications in noise sensitive areas such as schools or hospitals, operating at 80dB and 15% quieter than a diesel excavator. This environmentally friendly option offers a more sustainable choice.

Expanding undercarriage

### Now available - Cab and Canopy

The NEW Takeuchi TB20e now available in cab and canopy designed for low emission zones for carbon free excavating. Engineered for maximum power performance, with robust machine durability delivering exceptional operator comfort.

#### **▼ POWER PERFORMANCE**

Delivers 100% battery power with 4-8 hours operating

**100% ELECTRIC** 

**ZERO EMISSIONS** 

## PRODUCT FEATURES & SPECIFICATIONS

#### **OPERATOR STATION**

- 4.3" high definition, multifunction colour display
- Suspension seat
- Retractable seat belt
- Front and rear wiper/washer (Cab only)
- Radio with Bluetooth (Cab only)
- Retractable windscreen with sun visor (Cab only)
- Elec fan heater / de-mister (Cab only)
- Foldable travel pedals
- Boom swing pedal, with foldable footrest
- Emergency stop switch
- Safe start system (left console)
- ISO/SAE pattern change valve via monitor
- ROPS/TOPS/OPG (Level 1)

#### **ZERO EMISSION ELECTRIC POWER**

- 24.7 kWh lithium-lon battery
- 100% battery powered with zero emissions
- Reduced sound and vibration levels
- ECO mode

#### **CHARGING**

- On-board charger charge static
- On-board charger charge whilst operating

#### Optional Fast Charger

- Off-board Fast charger - reducing charge time to 2-4 hours

#### **ELECTRICAL**

- Rocker switches
- Full LED light package
- Travel alarm
- 12V battery disconnect switch
- Hour meter/trip meter
- 12V power outlet
- TFM (Takeuchi Fleet Management)

#### **ELECTRO - HYDRAULIC**

- 2 electric motors
- Load sensing system for operation
- Electro-hydraulic joysticks
- Autotank
- 1st, 2nd and 3rd auxiliary as standard plumbed to mid-arm
- Proportional control with 1st and 2nd aux circuits
- Detent for 1st auxiliary circuit
- Adjustable hydraulic flow on first auxiliary
- Cushioned boom and swing cylinders
- Top mount boom cylinder
- Boom and arm holding check valves
- Lift alarm
- Steel hydraulic tank with fluid level sight gauge

#### **UNDERCARRIAGE AND FRAME**

- Triple flange track rollers
- Hydraulically retractable undercarriage
- Adjustable width dozer blade
- Two-speed travel with auto step down
- Wraparound protective counterweight
- Rubber tracks 230mm

**TFM** is a remote **TELEMATICS** system, using real time data to better manage your fleet and lower overall operating costs.

#### TB20e COMPACT ELECTRIC EXCAVATOR

- · 24.7kWh Lithium-Ion battery
- · Retractable undercarriage
- Full charge runs 8 hours 65% load
- Matches the performance of a diesel equivalent (TB216)

#### THREE CHARGING OPTIONS

- On-board domestic
- Tethered when operating
- Optional Off-board 3 phase fast

The TB20e is 100% battery powered with zero exhaust emissions. With a full charge the 24.7kWh maintenance free lithium-ion battery provides up to 8 hours of operating time at 65% load.

#### **CHARGING OPTIONS**

The TB20e features as standard an on-board charger, 95V to 265V single-phase

- On-board charger charge static
- On-board charger charge whilst operating

Optional off-board Fast Charger, 408V to 552V

• 3-phase Fast Charge

The optional off-board Fast Charger is available for fast 3-phase charging. Easy to transport with a simple hook-on to the dozer blade. (See back page for charging times).

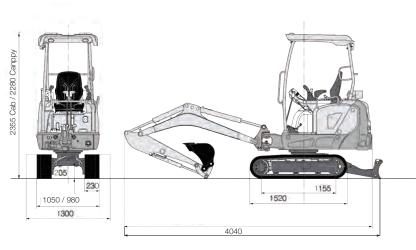

#### TB20e COMPACT ELECTRIC EXCAVATOR

# 2705 2390

All dimensions unless otherwise stated are in millimetres.

4090

Takeuchi machines come with a full 3 year/3000 hours warranty as standard, terms and conditions apply\* see website.

Before fitment of a hydraulic attachment, machine auxiliary pressure and flow should be accurately measured. For all lifting specifications please refer to the lift charts on the Takeuchi website or operator manual.

In accordance with our established policy of constant improvement, we reserve the right to amend these specifications at any time without notice. Photographs shown may feature non-standard equipment.
